Stage Floor:

The stage floor is sprung on 2x4 sleepers completely isolated by neoprene pads from hard contact with rigid members. The deck is 3/4 inch plywood and surfaced with masonite. The color is black jacobean stain.

Loading Access:

The loading door is 15' high x 12' wide and is located stage left. The loading dock is 15' deep x 25' wide and is accessed by a double tractor trailer bay. The dock is 3 feet above stage level which requires the use of ramps (2 provided). Shore power is available.

DRESSING ROOMS

All dressing rooms are located off stage right with a full crossover corridor behind the upstage wall.

First Floor:

Three Star dressing rooms:

Each is equipped with a makeup counter, lighted mirror, private restroom and shower and can accommodate 3 people.

The Green Room:

This room is furnished with upholstered furniture and wall to wall carpeting. There is also a kitchenette with sink, counter and refrigerator. This room can also serve as a private lounge or receiving room.

** Notation: The third star dressing room can also serve as a production office

The Wardrobe Room:

This room contains 2 washers, 2 dryers, wardrobe racks, ironing boards and 2 Jiffy steamers.

Second Floor:

Two Chorus Rooms:

These rooms, each with lighted makeup mirrors, counters and chairs, can accommodate 15-20 people. Rolling racks for costumes can be provided as required. Each room has a restroom attached.

Two Principal Rooms:

These Rooms are equipped with counter and lighted mirrors and can accommodate 1-5 people. They are adjacent to the chorus rooms and can serve as extra space for chorus or as semi-private dressing rooms.

RIGGING & DRAPERIES

Hanging Plot (measurement from the plasterline)

Hemp lines = 450 lb. distributed load limit; Double Purchase CW = 1200 lb. distributed load limits. All battens are 52' - 0" unless otherwise noted. All but three battens will fly 50'. All pipe is schedule 40. Pipe thickness is 1½".
